

# TERREVE COLLEGE

## HIGH SCHOOL DIPLOMA PROGRAMME

### General Education High School Equivalency Diploma

The GEHSED is designed for those students and individuals who did not graduate from high school or did not achieve or obtain their high school diploma. The GEHSED allows the opportunity for one to acquire their high school diploma despite their previous circumstances or reasons whilst they would have traditionally attended high school. This program is planned for one (1) year/four (4) semesters/terms. As seen in the outline below, students will be required to take these subjects. Students must **maintain a minimum of a 2.0 overall G.P.A.** in each subject. Upon the completion of this one (1) year program, students would have received their diploma with the college seal and pertinent signatures.
